Profile Summary

I'm a tech-savvy ERP and IT professional with 7+ years of cross-functional experience helping organizations align their technology with business goals. My background spans ERP implementation (SYSPRO, Dynamics 365), system administration, process control, and functional consulting across finance, manufacturing, and tech-driven sectors.

I specialize in streamlining workflows, improving risk controls, and driving digital transformation through scalable ERP solutions. Whether it's leading system upgrades, enhancing reporting accuracy, or supporting end-users across multiple departments, I bring a solution-focused mindset and a passion for efficiency.

Work Experience

ERP Manager at Kifiya Financial Technology (2024-03-11 - 2025-05-06)

Location: Addis Ababa, Ethiopia

Responsibilities: • System Implementation & Optimization: Led the successful implementation and ongoing optimization of Microsoft Dynamics 365 Business Central, ensuring alignment with business processes and scalability to meet future growth.

• Process Improvement: Identified opportunities for process automation and enhanced reporting capabilities, reducing manual workloads and improving operational efficiency across departments such as finance, procurement, and Human Resources.

• User Training & Support: Led training initiatives for end users, empowering cross-functional teams with the knowledge to fully leverage the ERP system and ensuring smooth day-to-day operations.
