## Profile Summary

I'm a Senior Mobile Developer with over 4 years of experience building high-quality iOS and Android apps using Swift, Kotlin, Flutter, and React Native. I specialize in creating fast, reliable, and user-friendly mobile experiences, with a strong focus on clean architecture and performance optimization. I've contributed to multiple end-to-end product launches and enjoy mentoring junior developers. Passionate about mobile innovation, I stay updated with the latest technologies and best practices.

## Work Experience

### Software Developer at Kifiya Financial Technology PLC (2024-11-15 - 2025-11-15)

Location: Addis Ababa, Ethiopia

Responsibilities: Mobile Developer

### Software Developer at Mijini Tech (2020-08-07 - 2022-11-24)

Location: Nairobi, Kenya

Responsibilities: ● Overseeing end-to-end development of Android applications, from conceptualization to deployment.

- Collaborating closely with cross-functional teams to integrate app features seamlessly.
- Implementing diverse APIs for location, social media, and payment gateways.
- Continuously optimizing application performance by identifying and resolving bottlenecks.
- Conducting regular code reviews, bug fixes, and comprehensive unit testing.
- Maintaining the codebase using Git and other version control systems.
- Actively researching and implementing new technologies to enhance development efficiency.
