## Work Experience

---

### Technical Analyst at Kifiya Financial Technology PLC (2025-03-10 - 2028-11-30)

Location: Addis Ababa, Ethiopia

Responsibilities:

- Data collection and analysis: collect and compile data and information from diverse sources, including conducting market research at the nexus of technology and access to finance, access to markets, and agriculture. Leverages data insights to inform decision-making and drive business improvements.

- Synthesis and analysis: synthesize, and analyze data and information from diverse sources to identify trends and insights on market gaps, business opportunities and challenges and social impact.

- Project Oversight: Manages project delivery, timelines, and resource allocation to ensure projects are completed on schedule and within scope.

- Reporting and knowledge translation: Develop use-focused knowledge products, including research summaries, briefing notes, presentations, events, data and concept visualizations and diagrams, reports and inputs other publications.

- Collaboration: Identify and liaise with key internal and external stakeholders to identify and pursue opportunities for collaboration. Coordinate and align with multiple business teams to define information/evidence needs, gather inputs and ensure outputs are relevant and use-focused.

- Business development: Contribute to business and partnership development and program design, including developing concept notes and partnership proposals.

- Quality assurance: Ensure the accuracy and reliability of analyses, and constant, transparent documentation of sources, methods and limitations.

- Stakeholder Communication: Acts as a bridge between clients, project teams, and stakeholders, ensuring clear, consistent updates and alignment.

- Risk Management: Identifies, assesses, and mitigates project risks to avoid delays or cost overruns.

- Process Improvement: Continuously refines project processes and best practices to enhance efficiency and output quality.

### Project Manager at Precise Consult International PLC (2023-12-01 - 2025-03-07)

Location: Addis Ababa, Ethiopia

Responsibilities:

- Leading a four-year program that uses decentralized renewable energy to boost incomes, empower women, improve nutrition, and create jobs through an ecosystem-building approach.

- Led a \$210,000 program that leverages off-grid energy solutions to empower underserved communities, enhancing access to better livelihoods, reduced CO2 emissions, and youth job opportunities.

- Secured a \$500,000 project by designing an innovative subscription-based farming model that enhances how farmers receive payments for their produce.

- Pioneered a financing scheme with 4 financial institutions to increase the adoption of solar productive use solutions

among farmers, promoting sustainable practices and agricultural productivity.

- Led the coordination of 11 internal teams, interns, and external consultants across 4 projects, ensuring effective and efficient outcomes with significant community impact.

### **Project Coordinator at Precise Consult International PLC (2023-05-01 - 2023-11-30)**

Location: Addis Ababa, Ethiopia

Responsibilities: • Developed and implemented a \$350,000 market development strategy that led to a five-fold increase in farmers' income.

- Developed a five-year National Poultry Program with regional governments and research institutes to transform the sector and address childhood stunting.
- Coordinated and authored comprehensive reports for two \$650,000 agricultural market solution projects, successfully communicating key results and driving effective implementation.
- Conducted a baseline assessment within a 6,000-resident island community, providing actionable insights to inform and guide targeted development initiatives.

### **Analyst at Precise Consult International PLC (2022-12-01 - 2023-04-30)**

Location: Addis Ababa, Ethiopia
