## Profile Summary

I am a PhD-level economist with over a decade of experience at the intersection of research, policy, and development. My work spans academia, international organizations, and the private sector, with a strong focus on leveraging data and economic insights to inform decisions and design impactful solutions.

Throughout my career, I have led and contributed to 24+ research projects covering financial inclusion, credit scoring, gender and climate economics, general equilibrium modeling, and agricultural and development policy. I bring deep expertise in large-scale survey design, econometric modeling, policy analysis, and learning & development strategy.

Skilled in tools such as STATA, SPSS, EViews, MATLAB, and SIMAPRO, I am passionate about applying evidence-based approaches to solve real-world challenges. My professional interests include digital finance, development consulting, gender empowerment, and climate resilience.

I thrive in multidisciplinary teams and enjoy building bridges between research, policy, and implementation.
