Profile Summary

I am a dedicated backend developer at Kifiya Financial Technology with a passion for advancing my career in the tech industry. With a strong background in backend development and DevOps, I strive to excel and become a top backend/DevOps engineer. My goal is to leverage my skills and experience to drive innovation, streamline processes, and contribute to the success of cutting-edge projects.

Work Experience

Backend Software Developer at Kifiya Financial Technology PLC (2024-09-02 - 2027-01-02)

Location: Addis Ababa, Ethiopia

Responsibilities: I am a seasoned backend developer at Kifiya Financial Technology with expertise in using Golang, Node.js, and Python to spearhead the development of essential backend projects like Cossab, Aplic, Notification and Logger services, as well as Participant Management System. My main responsibility lies in architecting robust and scalable backend solutions that drive operational efficiency and elevate user experiences. I am dedicated to delivering high-quality code, optimizing system performance, and ensuring seamless integration of backend services across the organization. With a proven track record of successfully managing and executing critical projects, I am committed to contributing to Kifiya Financial Technology's mission of innovation and excellence.

Education

Bachelor's Degree in Computer Science

Institution: HiLCoE School of Computer Science and Technology | Dates: 2019-09-01 - 2027-01-02

Location: Addis Ababa, Ethiopia
