Profile Summary

I am a seasoned technology leader with over 13 years of experience spanning software development, system architecture, and engineering management. Throughout my career, I have led high-impact projects and cross-functional teams, delivering technology solutions that drive business growth, innovation, and operational efficiency. I specialize in optimizing engineering processes, integrating emerging technologies, and aligning tech strategies with business objectives. I am passionate about building and mentoring strong technical teams, fostering a culture of excellence, and driving continuous improvement to ensure the delivery of high-quality, scalable products.

Work Experience

Senior Engineering Manager (Technology & Research and Development) at Ezra (2021-10-01 - 2024-02-29)

Location: Nairobi, Kenya

Responsibilities: •Led the design and implementation of a Customer Value Management System, enhancing customer engagement and experience.

•Spearheaded system re-platforming efforts, building a scalable and reliable infrastructure that streamlined partner onboarding processes.

•Managed the integration of new partner projects, contributing to revenue growth and business expansion.

•Drove Agile adoption across teams, improving production timelines and fostering cross-department collaboration.

•Collaborated closely with product managers, designers, and key stakeholders to align technology initiatives with business objectives.

•Oversaw engineering teams, focusing on skill development, system scalability, and process improvements to enhance deployment reliability.

•Directed cross-functional teams across technology and R&D, managing the end-to-end product lifecycle and driving product quality improvements.

Senior Software Engineering Team Lead at Ezra (2018-08-01 - 2021-10-31)

Location: Nairobi, Kenya

Responsibilities: •Team Leadership & Development: Led and mentored a team of engineers, driving productivity improvements, accelerating time-to-market, and reducing technical debt through Agile practices and rigorous code reviews.

•Software System Design: Directed the design, development, and maintenance of critical software systems, enhancing system reliability and delivering high-quality solutions that elevated client satisfaction.

•Technical Leadership: Championed the adoption of advanced technologies and established engineering best practices to improve code quality, reduce bugs, and boost overall development efficiency.

•Cross-Functional Collaboration: Collaborated closely with product managers, UX designers, and QA engineers to deliver software solutions that exceeded client expectations and optimized project delivery timelines.

Software Engineer at JUMO (2017-05-01 - 2018-08-31)

Location: Nairobi, Kenya

Responsibilities: •Contributed to the design and development of JUMO's tech stack, collaborating on system integrations to enhance platform capabilities.

•Worked closely with the team to integrate the lending platform with various partners, streamlining operations and improving system efficiency.

•Participated in architecture decision-making processes, supporting improvements in system scalability and deployment reliability.

•Supported the implementation of solutions for customer migrations, contributing to platform stability and improving customer retention.

•Collaborated with the team to resolve production issues, ensuring system uptime and reliable service delivery.

Education

Bachelor's Degree in Bachelor of Science in Information Technology (BScIT)

Institution: Jomo Kenyatta University of Agriculture and Technology | Dates: 2007-04-01 - 2024-02-29

Location: Nairobi, Kenya

Certification/Online Courses in Certificate in Java Mobile Application Development (Java SMS API, J2ME/CLDC ar

Institution: JKUAT/MIT AITI-x | Dates: 2009-09-01 - 2009-10-31

Location: Nairobi, Kenya

Skills & Tools

Programming & Development:

Java, Spring Boot, Clojure, Python, Node.js, React.js, Apache Camel, Apache Kafka, ISO 8583, JPOS

DevOps & Cloud:

Kubernetes, Docker, AWS (Lambda, EC2, S3, RDS)

Reporting & BI Tools:

Crystal Reports, SQL Server Reporting Services (SSRS)

ERP & CRM Systems:

Microsoft Dynamics AX, Microsoft Dynamics CRM, Microsoft Dynamics RMS

Productivity Tools:

Microsoft Office (Word, Excel, PowerPoint)

Core Competencies:

Communication Skills, Team Leadership, Project Management, Strategic Planning, Problem-Solving, Teamwork & Collaboration, Time Management, Organizational Skills, Critical Thinking, Stakeholder Management

Languages

English, Kiswahili

Awards & Certificates

Innovator Of the Year from Mifos (2015-05-08)
