Profile Summary

I'm a passionate and detail-oriented Software Engineer with a solid foundation in IT and hands-on experience in both frontend and backend development. I specialize in crafting full-stack solutions using Java, Spring Boot, React.js, and Flutter, while also bringing valuable DevOps skills to the table. My experience includes building scalable applications in agile teams, integrating REST APIs, and contributing to impactful digital platforms.

Beyond coding, I have practical experience with CI/CD pipelines using Jenkins and GitLab CI/CD, containerization with Docker, and secrets management using Vault. I thrive in collaborative environments, enjoy solving complex problems, and constantly seek to learn and adapt to new technologies. Whether working on web or mobile apps, or deploying them efficiently, I bring energy, reliability, and a growth mindset to every project.
