Profile Summary

I am a detail-oriented and collaborative professional with a strong background in digital platforms and Quality Assurance, specializing in User Acceptance Testing (UAT). With experience supporting data-driven projects and cross-functional teams, I bring a sharp eye for identifying issues, ensuring requirements are met, and improving overall user experience. My skills include test case design, defect tracking, stakeholder communication, and hands-on UAT execution. I am adept at translating business needs into testable outcomes and thrive in fast-paced, agile environments.

My goal is to contribute to the success of data-driven digital platforms by ensuring high-quality product releases that meet user expectations. I am passionate about continuous improvement and using structured testing to deliver reliable, user-centric digital solutions.

Work Experience

Data and Digital Platform Assistant at Kifiya Financial Technology (2021-05-24 00:00:00 - 2025-05-06 00:00:00)
Location: Addis Ababa, Ethiopia.
Responsibilities: Support Platform Operations: Assist in the day-to-day operations of the data digital platform, ensuring smooth functioning and timely issue resolution.

Data Coordination: Facilitate data integration, validation, and updates across systems to ensure accuracy, completeness, and consistency.

User Acceptance Testing (UAT): Coordinate and execute UAT activities by preparing test cases, collecting feedback, and ensuring that user requirements are properly validated before deployment.

Documentation and Reporting: Maintain clear and up-to-date documentation of workflows, test results, platform changes, and known issues.

Stakeholder Communication: Liaise with business users, developers, and QA teams to gather requirements, report bugs, and track issue resolution.
